

THE CU DENVER **BUSINESS** SCHOOL presents

DISTINGUISHED SPEAKER SERIES

in Business Analytics and Data Sciences

Dr. Carlos Oliveira, Data Scientist at Transamerica will discuss

ARTIFICIAL INTELLIGENCE IS PREDICTING YOUR LIFESPAN: REINFORCEMENT LEARNING IN THE CORPORATE CONTEXT

Join us in the heart of downtown Denver for unique insights on how data science and machine reinforcement learning are changing the way we do business.

The first in the Distinguished Speaker Series, this presentation will introduce the basics of the reinforcement learning framework, discuss some of its potential applications, and explore some difficulties applying this technique to problems in the corporate world.

"Reinforcement learning teaches complex sequences of decisions to an artificial agent. Certain applications of reinforcement learning, like video games, have achieved superhuman performance, but many challenges persist." - Dr. Carlos Oliveira, Data Scientist

Wednesday, September, 25, 2019

5:30 pm - 7:30 pm

CU Denver Business School
Laube Commons, 5th Floor

1475 Lawrence St.,
Denver, CO 80202
